How we can Help

Over the last 26 years, ACET has helped hundreds of organizations to plan, implement, and use information from the high quality services we offer.

Our staff has expertise in the following areas:

- **Needs Assessment:** Consult and customize data collection to meet client requirements.
- **Promotion and Recruitment:** Support marketing and participant recruitment, especially with underserved and hard to reach populations.
- **Logistics Management:** Coordinate planning, manage registration, and seamless execution of both virtual and in-person events.
- **Content and Facilitation:** Develop content and provide skilled trainers.
- **Technical Assistance:** Create relevant resources, toolkits, and protocols to maintain program quality, ongoing communication, and develop feedback loops to enhance programs and services.
- **Evaluation:** Collect participant feedback, analyze event effectiveness, and generate reports to help clients assess impact and plan for program improvements.
