

CAPABILITY STATEMENT

Company Overview

Green Retrofit Co is an MN-based contractor improving residential building performance through energy retrofits and high-performance construction.

We partner with developers, housing agencies, and property managers to reduce energy use, and deliver homes that exceed modern energy codes. Our work spans new construction and existing housing, guided by building science and aligned with passive and Zero Energy Ready construction standards.

Mission and Vision

Our mission is to make homes more affordable & healthier for MN families through energy efficiency

- Retrofit MN's aging housing stock
- Mainstream natural insulation in the Midwest
- Build homes with zero emissions & zero energy bills

Core Capabilities
