COMPANY OVERVIEW

HYTE Technology is a leading provider of high-quality audio, video, and low-voltage solutions, specializing in commercial installations. As a Union-affiliated business, we prioritize expert craftsmanship and adherence to safety standards while delivering top-tier technology solutions to our clients.

With a team of skilled, certified professionals, we offer customized services for everything from AV system installations, surveillance systems, to structured wiring and more. Our team provides seamless, reliable, and innovative installations that cater to the unique needs of each customer.

WHAT WE DO

- At HYTE Technology, we provide a wide range of audio/video and low-voltage services, including but not limited to:
- Audio Video Systems: Design and installation of high-quality sound and video systems for commercial and professional environments.
- Surveillance and Security Systems: Installation of high-definition cameras, access control systems, and security infrastructure to keep your property safe.
- Structured Cabling & Wiring: Professional setup for networking, telecommunications, and other low-voltage infrastructure.
- Commercial AV Systems: Design and installation of AV systems for businesses, conference rooms, and event spaces

WHY CHOOSE US?

- Expertise: Our team consists of highly trained union professionals who are committed to high-quality craftsmanship, safety, and efficiency.
- Customer Focused: We tailor our solutions to meet the specific needs of our clients, whether it's for commercial or professional spaces. No nonsense approach.
- Innovative Solutions: We stay on the cutting edge of technology, offering the latest and most reliable audio and video systems available.
- Quality Assurance: We use only top-grade equipment and ensure all installations are completed to the highest standards.
