COMPANY OVERVIEW

Banks Electric Corporation is a full-service union electrical contractor offering electrical services in the commercial and residential sectors. Our electricians are experienced, knowledgeable, and licensed through the State of Minnesota. We encourage a culture of safety and approachable leadership so that we may provide customers with the best industry knowledge, quality of workmanship and service. Banks Electric Company is determined to succeed and give you the best experience possible.

Banks Electric Corporation has a group of highly trained individuals that collectively have over 35 years of experience in the electrical industry. We have the highest skilled labor force pools of which to draw from working with Local 292 and Local Union 110 electrical workers. Our company can staff projects of various sizes. Banks Electric Company offers a wide range of electrical options with personalized service and honest communication.
