

# CAPABILITIES STATEMENT

## About

- Commercial Door Systems is an experienced material supplier of architectural grade door, door frames and door hardware. By leveraging partner programs and maintaining our own stock of hardware, hollow metal and wood products, we are able to offer exceptionally fast lead times. We fabricate custom door frames, machine doors in our shops and can have them prefinished locally.
- Our professional project managers ensure that projects are run efficiently and that you are thrilled with the end result. In most cases, customers have a single point of contact starting with estimating through a project's completion. Our size helps purchasers meet small business contracting goals without compromising on price or reliability. We look forward to working with you!
