

Capability Statement

Insight Restoration is a Woman Owned, Small Business that provides complete mitigation service for water damage, including: storms, flooding, rain, hurricanes and fire. We specialize in restoring your business/operations or documents after a disaster with little interruption. Regardless of the level of challenge in the job, our expert team will handle it efficiently and cost effectively. We have our own patented **Titan HE 5000** desiccant dehumidifiers to use on all events. The **Titan HE5000** uses one quarter of the fuel of a standard generator driven desiccant dehumidifiers and is quiet, 65 decibels at 25 feet. We provide complete document restoration services utilizing portable sublimation vacuum freeze dryers. We also offer many specialty services for all clients such as: mold remediation, content cleaning, sewer backup, formaldehyde, hoarder, eviction and foreclosure clean-ups, as well as partial or entire building climate control. No matter the emergency we have highly trained and certified restoration technicians on call 24/7, to get the property back to 100%.
