Differentiators:

CJ Essentials was founded in 2021 by three entrepreneurial women who wanted to introduce a hand sanitizer that kills 99.9% of germs but that is also a more discrete product that looks and smells better than your normal hand sanitizer. CJ Essentials is a certified WOSB that specializes in ethically manufactured hand sanitizer that is Leaping Bunny and PETA Certified. We are Made in the USA and our hand sanitizer is infused with 100% Pure Essential Oils so it leaves your hands smelling good and feeling soft and hydrated. We offer three different scents Lavender, Citrus, and Vanilla.
