

# CAPABILITIES STATEMENT

RiteWay Conveyors, Inc. was founded in 1999 and began as an installer of conveyor systems for the package handling industry. Today, we have diversified to provide highly efficient, custom turn-key metal fabrication and conveyor solutions, including Manufacturing, Engineering, and Project Management. We are committed to delivering a superior customer experience.

RiteWay Conveyors is a highly capable metal fabrication manufacturer located in the heartland of Minnesota specializing Conveyor Material Handling, Weld Assemblies, Metal Fabrication, Mechanical Assemblies, Weldments, and Stand-Alone Fabrication.

RiteWay Conveyors has an extensive collection of manufacturing and fabrication processes under one roof. These include plate and sheet fabrication, forming, welding, assembly, and painting/finishing. In addition, the company provides manufacturing engineering and project management to support a full-service manufacturing experience.

## Design & Engineering

Design and drafting capabilities using Solidworks and AutoCAD.

## Fabrication

We have experience in a wide variety of material grades and thicknesses to be sawed, laser cut, and press brake formed to your specifications. All CNC machines are linked to our CAD/CAM network, increasing efficiency and accuracy, and decreasing costs. This includes a 14' Press Brake for forming large material. Quality is maintained through process control and schedules are carefully reviewed to ensure delivery dates are met.

## Welding

Our certified welding team has proficiency in MIG and TIG welding processes and works with diverse materials. We have the systems in place to meet demanding weld expectations.

## Paint and Finishing

Available coatings fast drying wet paint. Our 40' W x 10' H x 16' Open Faced paint booth handles large, manufactured component part sizes.

## Assembly

We put the manufactured components together in our assembly bay. Each job is led by an experienced Project Manager who provides an accurate multi-level Bill of Materials and thorough work instruction documentation.
