

Process

Experience

We provide IT asset reuse, recycle, and remarketing services. Christie Technology Corporation, founded in 2009, focuses on sustainable solutions. Our IT solutions match our philosophy to *Think Local, Simple and Sustainable!*™

Christie Technology has over 30 years of experience working in Information Technology (IT) and Risk Management at Amoco, KPMG and IBM.

We have managed recycling and onsite data eradication services for companies in the Education, Government, Financial, Sports & Entertainment, Healthcare, and Energy & Utilities (including Nuclear Energy plants) industries.

Tools

Scheduling jobs, tracking progress, viewing charts and graphs, and gathering processing data for reporting is easy using our proprietary e-Compost™ tool.

We deliver the transparency you deserve.

Peace of Mind

Christie Technology Corp is an R2v3 Responsible Recycling, ISO 14001:2015 and OHSAS 18001:2007 certified company.

Certified companies are committed to socially responsible recycling standards in the areas of export, land dumping, incineration and prohibited use of prison labor. Certified companies undergo a rigorous audit process that includes tracking hazardous materials to final recovery to ensure responsible recycling -- including no dumping and no export.

We have the capability to sell your IT equipment for reuse.

We are data security specialists who have experience handling and disposing IT equipment with confidential data or personal sensitive information.
