

Low Fuel

CAPABILITY STATEMENT

Skip the Pump.

Let the Gas Station Come to You.

Company Overview

Low Fuel specializes in providing direct fuel delivery solutions, offering reliable, cost-effective services tailored to various industries, including aviation, construction, government, education, and private sectors. Powered by Dooley Petroleum, one of the most trusted fuel suppliers, we ensure seamless and dependable fueling services to meet diverse client needs.

Core Competencies

- **Aviation Fueling Services:** Delivery of Jet A and 100LL aviation fuel for private and commercial aircraft.
- **Wet Hose Fueling:** On-site refueling for construction equipment, airport operations, and industrial vehicles to reduce downtime.
- **Mobile Fuel Delivery:** Flexible fueling for fleets, government entities, and agricultural equipment.
- **Bulk Fuel Supply:** Competitive bulk delivery of diesel, gasoline, and other fuel products for transportation and farming industries.
- **Large-Scale Project Support:** High-volume fuel delivery for airport operations, state transportation, and construction projects.

Past Performance

Low Fuel operates with the backing of **Dooley Petroleum**, a trusted name in the fuel industry with over 40 years of excellence in Minnesota. This partnership ensures access to an extensive supply chain, seasoned logistical expertise, and a proven track record of reliable fuel delivery across diverse industries. By leveraging this strong foundation, Low Fuel brings unmatched reliability and trustworthiness to its clients, ensuring seamless, high-quality fueling solutions tailored to meet their specific needs.

Competitive Advantages

Strategic Partnership: Backed by Dooley Petroleum, offering unmatched supply chain reliability.
